Who is this man?
What do you notice?

Gouverneur Morris was born in 1752 and died in 1816. Our town is named after him. He was a writer and a signer of the US Constitution. He was Pres. Washington's ambassador to France. There were no computers in his time and he did have a wooden leg.

The latest hairstyles were available from The Washburn School of Beauty, owned by Evelyn McGrane Washburn, 123 East Main Street, Gouverneur, NY. 1925 to 1937

See her machine for curling hair at the Gouverneur Museum.
